

HRMT20028 ASSESSMENT ITEM 2 – MARKING RUBRIC

STUDENT NAME:

STUDENT NUMBER:

Note: The markers will write comments throughout the assignment using ‘pencil’ in Turnitin. **It is expected that Turnitin similarity score is less than 20%. It is possible that you get a little bit higher level if you have a very long reference list. But if the higher similarity is found in the body of the assignment, this is unacceptable. Higher similarity score may significantly affect your marks as marks are given based on original texts and appropriately referenced texts only. It is suggested that you reduce direct quotes for other sources and paraphrase wherever possible. The unit coordinator will analyse the similarity score reported by Turnitin case by case.**
